

Hummingbird Garden Scene

Printable Coloring Pack • 5 Pages

Pack Details

- Pages: 5 coloring pages
- Difficulty: Intermediate
- Format: US Letter PDF
- Features: Trumpet vine, Bee balm, Garden scenes

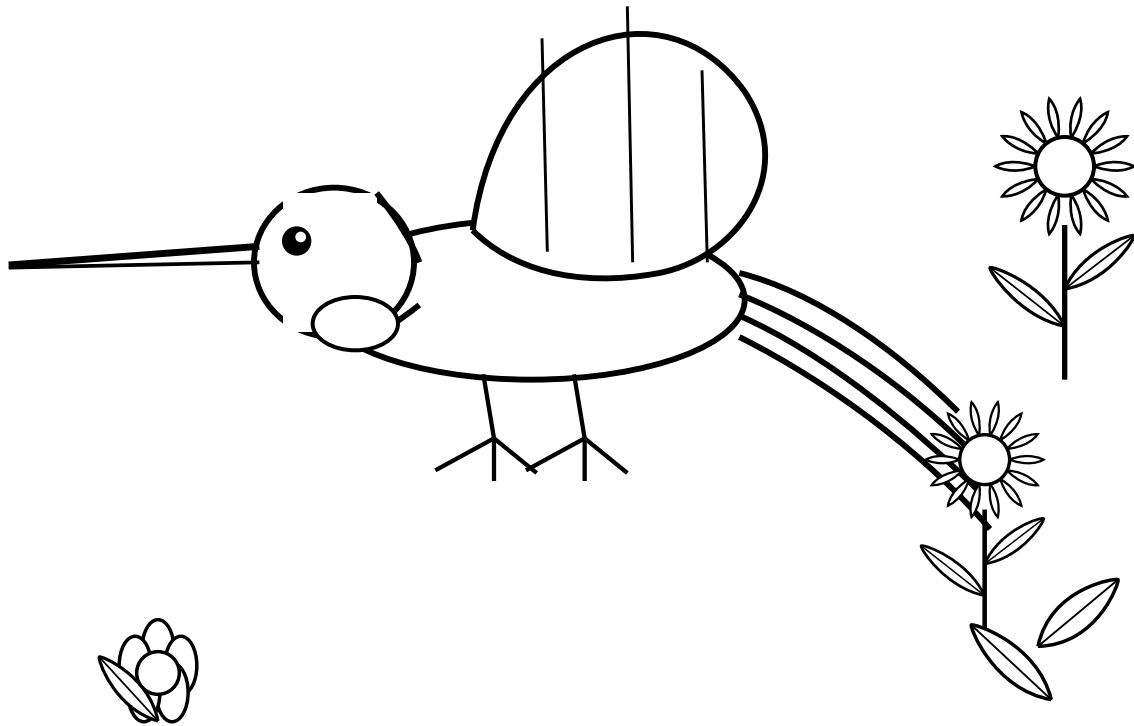

Pro Tip:

Print on cardstock for best results. Use light pencil strokes first, then build up color gradually for a beautiful professional look!

Hummingbird & Bee Balm Garden

Monarda didyma — A favorite nectar source for hummingbirds

Color me! !' Print on white paper | Use colored pencils, markers, or crayons

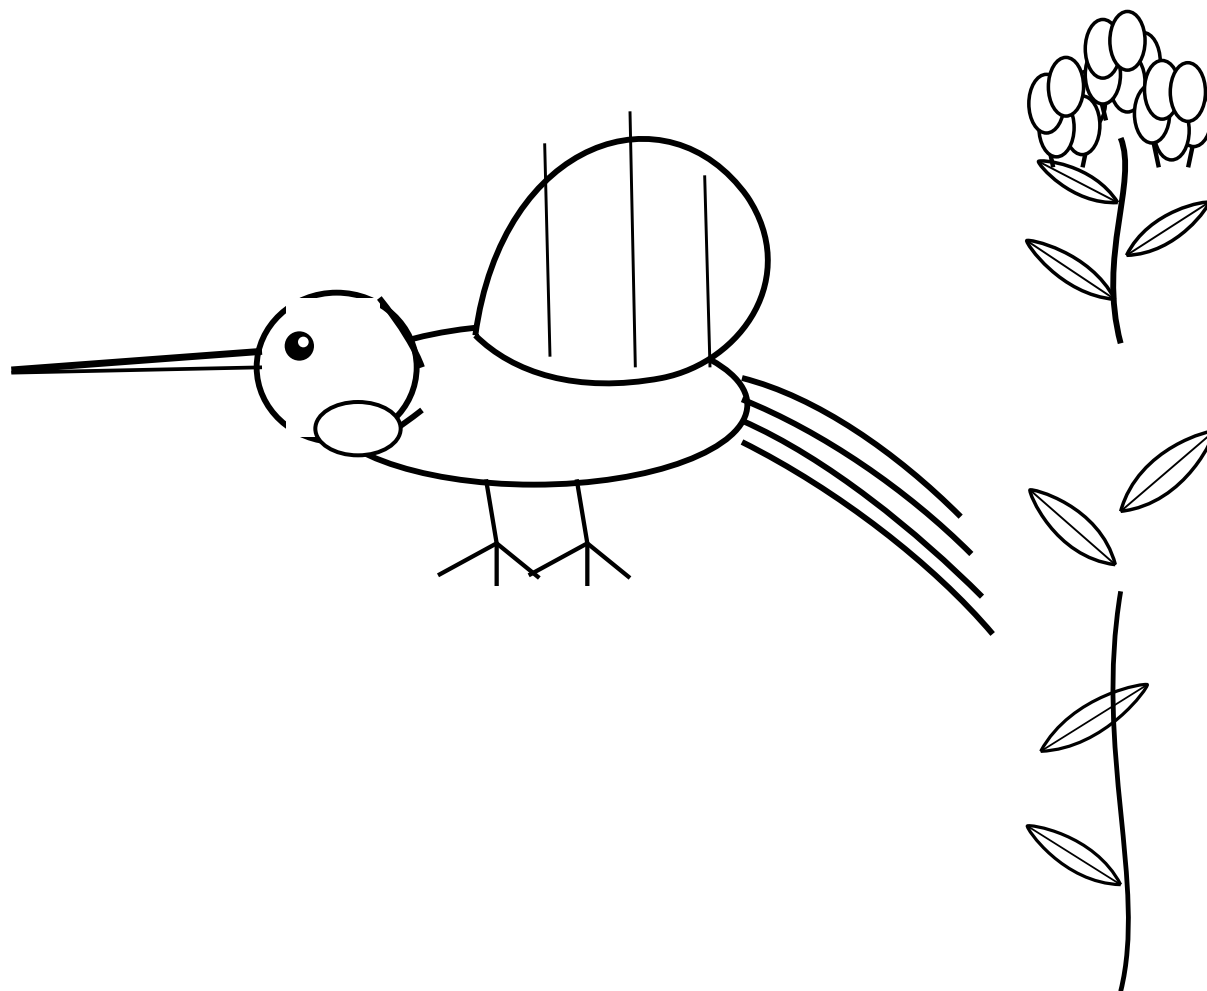

Garden Scene Facts

- Bee balm (*Monarda*) produces nectar-rich tubular flowers that perfectly fit hummingbird bills.
- Hummingbirds remember every flower in their territory and return in a circuit pattern.
- A hummingbird can visit 1,000–2,000 flowers per day for nectar.
- Plant bee balm in USDA Zones 3–9; it blooms July–September.

Hummingbird & Trumpet Vine

Campsis radicans — Native vine with brilliant orange-red flowers

Color me! !' Print on white paper | Use colored pencils, markers, or crayons

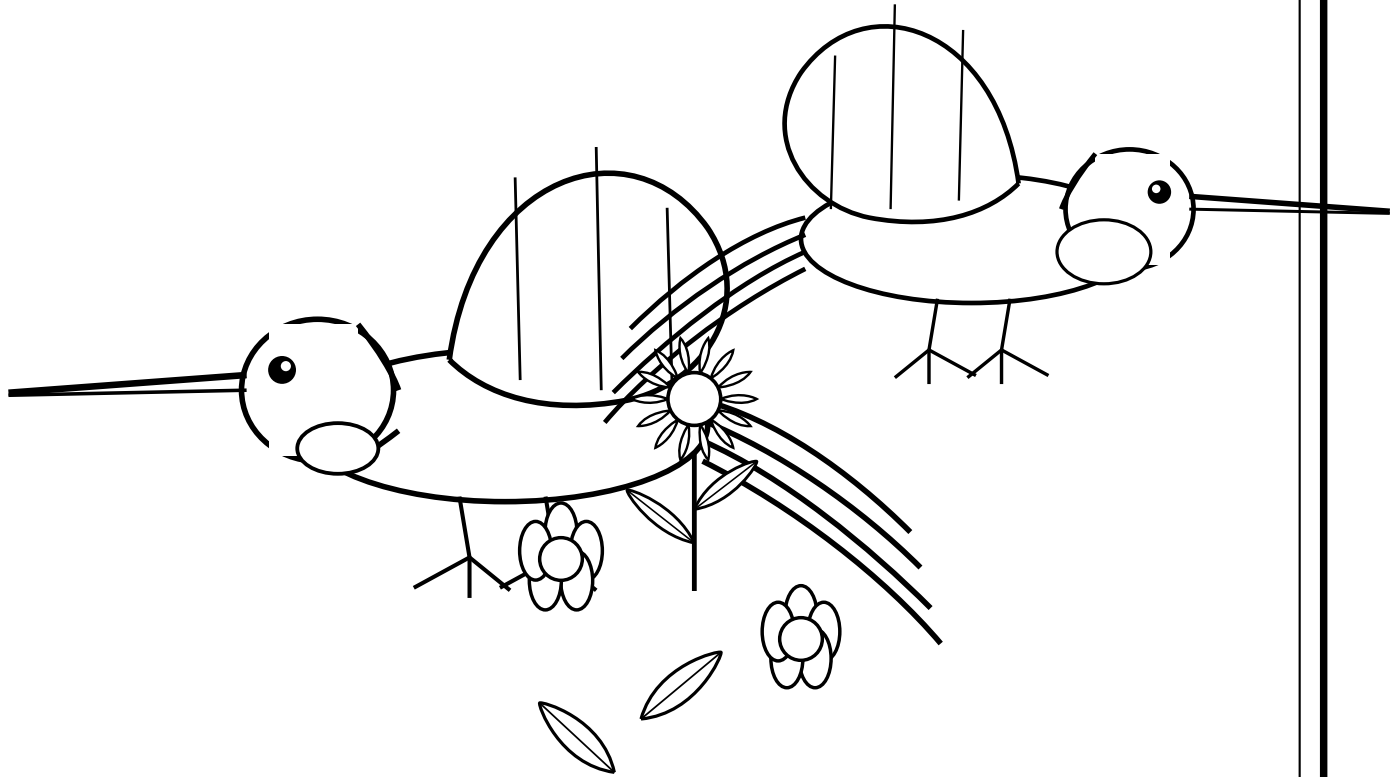

Trumpet Vine Facts

- Trumpet vine (*Campsis radicans*) is native to eastern North America and blooms June–September.
- Its long tubular flowers evolved alongside hummingbirds — they fit the bill perfectly.
- Ruby-throated hummingbirds are the primary pollinators of trumpet vine in eastern US.
- Plant in full sun; it can grow 30–40 feet long and needs a strong trellis or fence.

Two Hummingbirds at a Flower Garden

Hummingbirds are territorial — watch them chase each other away from feeders!

Color me! !' Print on white paper | Use colored pencils, markers, or crayons

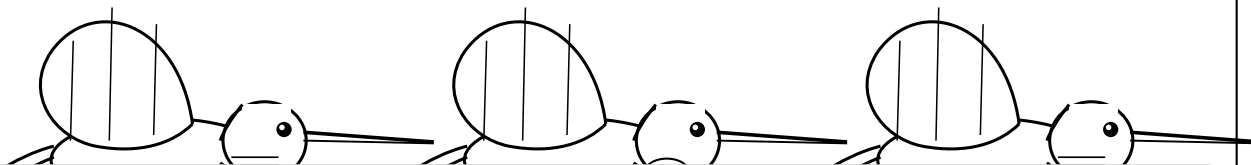

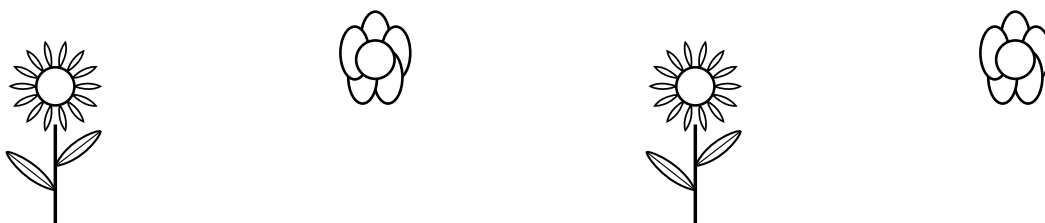

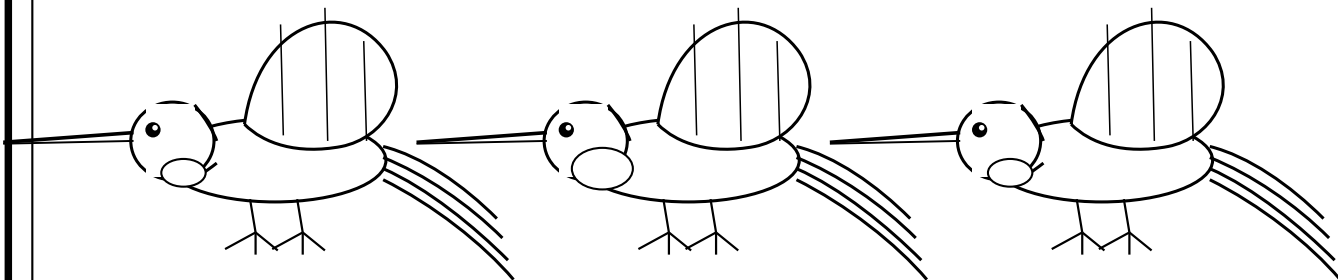

Hummingbird Territory Facts

- Male hummingbirds are highly territorial and will aggressively defend nectar sources.
- Territory size is typically 1/4 to 1/2 acre around a reliable food source.
- Hummingbirds use a dive display — swooping in a U or J shape — to warn rivals.
- To reduce conflicts, space feeders at least 10–20 feet apart.

Hummingbird Garden Border Pattern

A decorative coloring page — fill in the repeating floral and bird motifs

Color me! !' Print on white paper | Use colored pencils, markers, or crayons

Gardening for Hummingbirds

- Plant native tubular flowers in red, orange, and pink — hummingbirds see these colors well.
- Include a water feature: hummingbirds love to bathe in misters and gentle sprinklers.
- Avoid pesticides — hummingbirds also eat tiny insects and spiders for protein.
- Keep feeders clean: change nectar every 2–3 days in summer to prevent mold.
